

Tsion Tegicho

Frontend Developer

[LinkedIn](#) | [GitHub](#) | +1(262-671-9540) | Email: tsion714@gmail.com | Columbus, OH | tsiontegicho.dev

Dedicated software developer with over a year of experience in frontend and full stack development. Skilled in React, TypeScript, Firebase, and Node.js, with a strong focus on UI design and user experience. Committed to building clean, scalable interfaces and full-stack solutions that bring ideas to life across platforms.

Professional Experience

Skinstric AI

[Remote](#) | [January 2025 - June 2025](#)

Frontend Engineer

- Built a responsive, component driven skin analysis interface using React.
- Collaborated closely with designers by translating high-fidelity Figma Designs into pixel-perfect UI, ensuring precise adherence to layout, spacing, typography, and color specifications.
- Used Figma's auto-layout and design system features to maintain consistency across components and streamline the development process.
- Developed reusable UI components following best practices for scalability and maintainability.
- Implemented design tokens to enable scalable and maintainable theming across the application.
- Integrated GSAP animations to enhance user experience during real-time AI image analysis.
- Ensured accessibility standards, responsiveness and cross-browser compatibility across multiple devices.

Frontend Simplified

[Remote](#) | [August 2024 - January 2025](#)

Frontend Developer & Support staff

- Selected as peer mentor after achieving top 5% performance in cohort, providing debugging support and code reviews for 20+ students across React projects.
- Created and led workshops on modern frontend optimization techniques, helping students improve their portfolio project load times by an average of 50%.
- Developed comprehensive learning resources for React component architecture and TypeScript, resulting in 70% of mentored students successfully implementing type-safe applications.
- Built and shared reusable component library using ShadCN/UI
- Led study groups on deployment strategies and CI/CD, resulting in 85% of students successfully implementing automated deployment pipelines for their portfolio projects

University of North Carolina, Chapel Hill – School of Medicine

[August 2023 - January 2024](#)

Research Specialist

- Performed DNA isolation, PCR genotyping, and sample preparation with precision and accuracy
- Conducted surgical procedures and administered treatments while ensuring animal welfare compliance
- Maintained detailed data records, performed data entry, and generated experimental reports
- Ensured strict adherence to lab safety standards and protocol documentation

Projects (personal)

Search API Project: [Live Demo](#) | [Github Link](#)

Created a fully functional search platform for movies

- Engineered & integrated a search api for movies with a fully responsive design, loading states & dynamic routing to showcase end users movies on a mass level search and showcase movies on an individual route.

YouTube-clone: [Live Demo](#) | [Github Link](#)

Created a video streaming platform inspired by YouTube

- Built a responsive YouTube clone with React JS and the YouTube Data API, featuring real-time search, dynamic routing, and video playback in a clean, intuitive UI.

Technical Skills & Soft Skills

Programming Languages: TypeScript, JavaScript, HTML, CSS

Frameworks: React, TailwindCSS, Firebase, Supabase, NextJS, Redux, React Query, React Hook Form

Tools & Other platforms: Vercel, GitHub, Vite, Figma, VSCode, React Testing Libraries

Soft Skills: Problem-Solving, Communication, Collaboration, Time Management, Attention to Detail, Leadership

Education:

Full Stack Engineering Institute | [Certificate](#)

[February 2024 - July 2024](#)

Carthage College — Bachelor of Arts in Neuroscience

[September 2019 - May 2023](#)

Other

Interests: Outdoor activities, music, creative coding, web design, tech innovation, photography, and digital art
