[Frontend Developer](#)

[LinkedIn](#) | [GitHub](#) | +1(262-671-9540) | Email: tsion714@gmail.com | Dublin, OH | tsiontegicho.dev

Dedicated software developer with over a year of experience in frontend and full stack development. Skilled in React, TypeScript, Firebase, and Node.js, with a strong focus on UI design and user experience. Committed to building clean, scalable interfaces and full-stack solutions that bring ideas to life across platforms.

[Professional Experience](#)

[Skinstric AI](#)

[Remote](#) | [January 2025 - June 2025](#)

Frontend Engineer

- Built a responsive, component driven skin analysis interface using React.
- Collaborated closely with designers by translating high-fidelity Figma Designs into pixel-perfect UI, ensuring precise adherence to layout, spacing, typography, and color specifications.
- Used Figma's auto-layout and design system features to maintain consistency across components and streamline the development process.
- Developed reusable UI components following best practices for scalability and maintainability.
- Implemented design tokens to enable scalable and maintainable theming across the application.
- Integrated GSAP animations to enhance user experience during real-time AI image analysis.
- Ensured accessibility standards, responsiveness and cross-browser compatibility across multiple devices.

[The Ohio State University Wexner Medical Center- Department Of Neurology](#)

[January 2025 - Present](#)

Research Assistant

- Conducted molecular biology experiments(PCR, gel electrophoresis, Western blotting) and cell culture work to support neurodegeneration research.
- Analyzed and interpreted experimental data, maintained detailed, organized lab records and reports.
- Train and support junior researchers, undergraduate and graduate students in lab procedures and equipment use.
- Manage lab inventory and supply orders in alignment with grant budgets and funding cycles.
- Collaborate with faculty on progress reports, grant proposals and scientific publication.
- Perform literature reviews and contribute to data-driven research decisions.

[Frontend Simplified](#)

[Remote](#) | [August 2024 - January 2025](#)

Frontend Developer & Support staff

- Selected as peer mentor after achieving top 5% performance in cohort, providing debugging support and code reviews for 20+ students across React projects.
- Created and led workshops on modern frontend optimization techniques, helping students improve their portfolio project load times by an average of 50%.
- Developed comprehensive learning resources for React component architecture and TypeScript, resulting in 70% of mentored students successfully implementing type-safe applications.
- Built and shared reusable component library using ShadCN/UI
- Led study groups on deployment strategies and CI/CD, resulting in 85% of students successfully implementing automated deployment pipelines for their portfolio projects

[University of North Carolina, Chapel Hill – School of Medicine](#)

[August 2023 - January 2024](#)

Research Specialist

- Performed DNA isolation, PCR genotyping, and sample preparation with precision and accuracy
- Conducted surgical procedures and administered treatments while ensuring animal welfare compliance
- Maintained detailed data records, performed data entry, and generated experimental reports
- Ensured strict adherence to lab safety standards and protocol documentation

[Projects \(personal\)](#)

[Search API Project: *Live Demo* | *Github Link*](#)

Created a fully functional search platform for movies

- Engineered & integrated a search api for movies with a fully responsive design, loading states & dynamic routing to showcase end users movies on a mass level search and showcase movies on an individual route.

[YouTube-clone: *Live Demo* | *Github Link*](#)

Created a video streaming platform inspired by YouTube

- Built a responsive YouTube clone with React JS and the YouTube Data API, featuring real-time search, dynamic routing, and video playback in a clean, intuitive UI.

[Technical Skills & Soft Skills](#)

Programming Languages: TypeScript, JavaScript, HTML, CSS

Frameworks: React, TailwindCSS, Firebase, Supabase, NextJS, Redux, React Query, React Hook Form

Tools & Other platforms: Vercel, GitHub, Vite, Figma, VsCode, React Testing Libraries

Soft Skills: Problem-Solving, Communication, Collaboration, Time Management, Attention to Detail, Leadership

[Education:](#)

Full Stack Engineering Institute | [Certificate](#)

[February 2024 - July 2024](#)

Interests: Outdoor activities, music, creative coding, web design, tech innovation, photography, and digital art
